

Practising Health Professional Capacity Building SEED Grants 2023

This Program will provide two seeding grants at \$10,000AUD each to support research and engagement, translation engagement and capacity building among clinically active health professionals, providing research secondments. This will allow clinically active researchers to have protected time and obtain seed funding for a 12-month research project.

KEY DATES

Applications open Mon 19th June 2023
Applications close Sun 6th August 2023 (@ 11.59pm)
Outcomes to be advised by Fri 18th August 2023
Projects to start by Fri 1st September 2023
Projects to be finished by Sun 1st September 2024
Final reports due by Friday 11th October 2024

ELIGIBILITY CRITERIA

Applicants must be a researcher and clinically active health professional (working clinically at least one day a week or having more than 10 years' experience as an active clinician). Clinicians should have a PhD and be no more than 10 years post PhD (taking into account career disruptions). They must work with a member of the CRE HiPP investigator team – a chief investigator or an associate investigator.

TO APPLY

Please submit the following details & documents to crehipp@monash.edu, no later than Sunday 6th August 2023 (*Successful applicants will be informed by Friday 18th August 2023*)

Name:

Years post PhD:

Years as a clinician and type of clinical work:

Number of days currently working as a clinician:

What area of HiPP do you research/work in?

Please attach a separate document addressing the following:

- **Why are you eligible to apply?** (**no more than 150 words*)
- **What research project will you work on, providing details of rational for seed funding, aim of project, brief methodology, timeline?** (**no more than 400 words*)
- **Who will you work with from the CRE HiPP Investigator team and how will you work with them, including how you will be embedded in a secondment with this investigator?** (**no more than 400 words*)
